

Natural Herbal Extract Hair Dye

As the world enters an **AGING SOCIETY**, "Finding ways to look younger" has become the goal for most people. As such, hair dye products exploded in the beauty market as more people seek to mask their graying hair. Sadly, most of the hair dyes on the market uses toxic chemicals which is harmful and causes damage to the scalp and hair. Furthermore, it also causes pollution to the environment.

Common hair dye

Protect Your Scalp

The health of your scalp determines the health of your hair. "Your scalp is like the soil of a farm. Poor soil will directly affect the well-being of the plants growing in it," Our scalp contains about 100,000 follicles, a hair follicle goes deep into the scalp and has its own microbiome. Disruption in the balance of the scalp microbiome has been linked to dandruff, scaly patches, rough hair, hair breakage, reduced hair shine and premature hair loss.

Introducing Revolutionary Natural Herbal Extract Hair Dye

New Concept

Use a variety of precious herbs to moisturize and nourish your scalp, and use the natural colors of plants to effectively cover gray hair through heating and oxidation. Starting from the roots to repair your hair, strengthen the roots, increase elasticity, and create shiny and healthy hair.

New Goal

Only with a healthy scalp can you have healthy hair. EColorante's innovative 3 in 1 functions provide care to your hair and scalp while coloring your hair naturally. Rediscover your self confidence, health, beauty, youthful and vitality.

Responsibility

Our commitment to protect the well being of you and your next generation by providing the most natural and effective hair care products.

The Gift of Nature

Our herbal hair dye is formulated with many herbal extracts like ginseng, pearl, turmeric, henna, wood blue leaf, sandalwood, emblica fruit powder, sapphire, soapberry etc. These precious herbal plant extract together with hydrolyzed collagen, soy protein provide nutrition and care to your hair and scalp while coloring your hair, for a naturally beautiful, well-kept result.

Intensive Nourishment: He Shou Wu, Licorice Root Powder, Lavender, Guava Leaf
Plant-Based Coloring: Indigo Leaf, Henna Flower, Logwood

HERBAL EXTRACT

Ginseng / Pearl / Turmeric Essence,

GINSENG

1. Research has shown that ginseng might be beneficial for the scalp and encourage hair growth. The ginsenoside found in ginseng is known for strengthening the hair roots, therefore preventing further loss. Ginseng also improves the blood circulation within the body and boosts the immune system.

HE SHOU WU

2. This revered herbal plant nourishes and protects your hair, promoting a healthy scalp environment, strengthening hair follicles, and activating growth. Enjoy soft, supple hair with radiant shine and a vibrant, natural appearance.

TURMERIC

3. Turmeric's anti-fungal and antibacterial properties can treat scalp conditions and irritations such as dandruff, fungus, dryness, and itchiness. The spice creates a healthier environment on your scalp and promotes healthier hair as it reduces breakage and hair loss.

2 3 in 1 Care, Repair, Color
