Harnessing the Benefits of Bird's Nest
and Deer Placenta
Exclusive Patent 11201807669V

Hi Tech Bird's Nest Trend of 21st Century

Deer De Yan contains a unique formulation of bird's nest extract and many other active ingredients that support the body's renewal system to repair and rejuvenate ageing cells and damaged tissues.

Bird's Nest Industry

The issue of bird's nests containing harmful substances such as nitrite has raised concerns amongst many people. Nitrite occurs in the environment, in food and water, and is produced inside living organisms. Furthermore in traditional processing, bleaching agents and chemicals are often used

Nitrite, bleach and chemical are difficult to eliminate in bird's nest and processed bird's nest may contain nitrite in a wide range of 70ppm-4000ppm. Nitrite is converted into nitrosamines, which is a harmful ingredient.

Deer de Yan uses patented unique advanced bio-nanotechnology to clean the bird's nest and eliminate all toxic substances, chemicals and pollutants, at the same time preserving the best effect of the bird's nest nutrients like sialic acid.

Researchers have studied the role of sialic acid in infant nutrition due to its potential supportive roles in brain development and function, resistance to pathogens, gut maturation, and immune function.

Our product does not contain any artificial colors, artificial flavors, bleaching ingredients, preservatives

What is Deer de Yan Plus

Deer De Yan Plus contains a unique formulation of active placenta extract and bird's nest extract per capsule. An advanced encapsulation preserves vital cell growth factors extracted from the placenta and edible bird's nest, which are active ingredients that support the body's renewal system to repair and rejuvenate ageing cells and damaged issues.

Why Deer de Yan Plus?

Deer de Yan Plus consists mainly of nutrients from Bird's nest and Live Cells from fresh deer placenta extract, processed via a first-of-its-kind aerospace freeze-dry process. Deer de Yan also contain the cleanest and ultra potent bird's nest which had undergone the world's only state-of-the-art technology cleaning process. This eliminates all toxins, chemicals and contamination while retaining its nutritional bounty for optimal efficacy.

Deer de Yan Plus also contains all-natural ingredients like Astaxanthin, Beta Carotene, Silk Amino Acid, Avocado Oil, Borage Oil and Squalene to help you regain your health and vitality.

Benefits of Deer de Yan Plus

- Prevents loss of vitality, physical and mental exhaustion, premature aging and deterioration of organs
- Improves mental efficiency, arthritis and degenerative diseases of the connective tissue
- Helpful against menopause, chronic pain, migraine, headaches, nerve pain, back pain, facial pain
- Improves vitality, skin elasticity and immune system

What makes an excellent product?

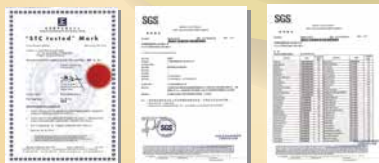

SGS certification ensures the most stringent control over products quality.

Deer de Yan Bird's Nest Nutrients

Bird's Nest Extract and Extraction
Processing Technology
Patent number: 11201807669V
Leading the industry with exclusive
patent around the world

GLYCOPROTEIN (POLYSACCHARIDE)

Bird's nest have 2-3 times more Glycoprotein than normal food and have moisturizing effects to the skin. Long term consumption results in radiant and glowing skin

SIALIC ACID

Improves immune system and resistance against bacteria and viruses, prevent spread of influenza.

AMINO ACIDS

Provides nutrition, adjust the functions of human body and improves immune system.

ANTIOXIDANTS

Antioxidant is an important element to maintain health and energy. It protect the body from radical damage.

OMEGA-6

Essential for brain and muscles development, aids in production of hormone and helps nervous systems.

MINERALS

Bird's nest have minerals naturally present which maintains normal physiological functions and metabolism.

Golden Ratio

BIRD'S NEST EXTRACT 200mg(50:1)

- Sialic acid is one of the main effective ingredients in bird's nest
- It can prevent pathogens from adhering to cells, thereby improving the immune system and repair damaged cells

BORAGE OIL 200mg

- Borage oil contains GLA (γ-linolenic acid), which is a polyunsaturated fatty acid and structurally belongs to a special Omega-6 series of essential fatty acids.

SQUALENE 200mg

- Necessary to synthesize vitamin D, cholesterol in the body
- Widely used to strengthen the immune system

AVOCADO OIL 100mg

- Strong antioxidant and anti-inflammatory effects
- Support capillary structure

DEER PLACENTA 200mg(20:1)

- The deer placenta is selected from New Zealand, raised and grown with clean and pollution-free environment.

SILK AMINO ACID 50mg

- Amino acids are the cornerstone of the human body, building cells and repairing the body.
- Establish nucleoprotein (RNA and DNA), transport oxygen to all parts of the body and participate in muscle activity

BETA CAROTENE 10% 50mg

- Help prevent eye problems, reduce the risk of cataracts
- Enhance immunity against colds, flu and infections

ASTAXANTHIN 15mg

- Reduce wrinkles, age spots, improve skin
- Prevent the sun damage, reverse the signs of aging
- Effectively reduce inflammation and joint pain

Deer de Yan 4 State-of-the-Art Technology

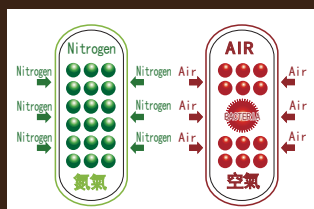

FREEZE DRYING TECHNOLOGY

allows live cells to maintain biological activities for 3 to 4 years.

NANO EMULSIFICATION

Techniques allows large molecules to be fully absorbed.

NITROGEN LIVE CAPSULE TECHNOLOGY

inhibits oxygen during the process of capsulation to prevent oxidation and deterioration.

ENTERIC COATING TECHNOLOGY

allows capsule to be resistance against gastric acid and improve absorption rate.
